

# A month free bike trailer hire

In order to get more people convinced of the wonders of bike trailers I have built up a couple of light weight load carrying trailers that you can trial for a month or so, to give you a chance to see how they perform. Take them shopping, fruit picking, surfing, to the library, carrying supplies for kids rides, camping etc. If you'd like to give a donation at the end of the month to cover the wear and tear on tyres, that would be nice, but not essential. There is a small bracket to set up on your bike and then the trailer attaches with a quick disconnect ball joint. They are set up to take two recycling crates for carrying loads or you can use a deck if you prefer. Currently the trailers are only available for pickup in Christchurch but if anyone else around the country would like to coordinate a similar scheme please get in touch.
